GOVERNOR ISSUES PROCLAMATION

McCreary Sets Apart Two Days, October 24th, and 25th., to Work Public Roads.

Frankfort, Ky., Oct. 1.—Gov. McCreary today issued a proclamation calling upon the people, in every county of the state of Kentucky to work on the roads in their respective counties on Friday and Saturday, Oct. 24 and 25, commencing in the morning at 8 o'clock each day and continuing until 5 o'clock in the afternoon. The county judge and engineer of each county are directed to aid the people in complying with this request, and they are authorized to select such persons as may be needed to assist. In every county where there is no Engineer or where they fail to act, the Sheriff or other persons are authorized to organize and comply with this proclamation.

The Governor says: "Good roads facilitate the labor of farmers in bringing their products to market, and increase the benefits of rural education by providing means by which the children of the State can go regularly to school, and furnish a better and easier way to go to church and greatly enhance the value of farm lands. This proclamation refers to dirt roads, turnpikes and gravel roads. As Kentucky always takes the lead, and as Kentuckians desire the betterment of our highway, they must come forward with enthusiasm and energy and show the people of other States that they can equal or surpass them in the improvement of their roads."

The Governor in his proclamation calls upon the citizens of every county in the State to meet, on the days set apart, for the purpose of working their

POPULAR YOUNG COUPLE WED

Marriage of Miss Ethel Boaz And Mr. Press Guess Solemnized Tuesday Morning.

Tuesday morning at 10 o'clock at the beautiful new home of Mr. and Mrs. Alvis Stephens, Mr. Press Guess and Miss Ethel Boaz were united in marriage by Rev. James F. Price. The ceremony was witnessed by only the host and hostess, the latter a sister of the groom; Miss Mabel Yandell, a cousin of the bride; Mr. and Mrs. C. A. Taylor; intimate friends of the contracting parties.

Immediately after the ceremony the happy couple departed for Louisville, Cincinnati and the east on a bridal tour. The best wishes of a host of friends go with this fine young couple. The bride is the daughter of Mrs. P. T. Grassham, of Salem, and a niece of T. J. and W. B. Yandell, of this city, and has been employed in the post-office here for several years and has made her home with her uncle, W. B. Yandell. She is universally popular on account of her sweetness of manner.

The groom has been the rural mail carrier on Route Five, out of this city, since the route was established, and there is not a more worthy or popular boy in the county. Press is business from the word go and is one of us and we all love him like a brother. The congratulations of this paper are sincerely offered.

Card of Thanks.

I desire to thank my friends of this and adjoining communities for their unstinted kindness to me in the recent illness and death of my beloved companion, George N. Moore. Praying that Heaven's richest blessing may attend each of them is the sincere wish of his wife,

NANNIE MOORE.

A Word To The Voter.

Dear sir:

The watchword of modern business is efficiency. In these days of graft and spoliation of office it is cheering to the voter, and fitting that we note and point out a County officer who has risen above the spoils of office, and in a modern efficient way placed his office high in rank among similar offices in the State of Kentucky.

This was done by hard work and close application to the office to which the people had elected him. It was done by eliminating bad and cumbrous methods and adopting the best business methods. This refers to Mr. Learner Guess, present County Clerk of Crittenden county, who is now a candidate to succeed himself this coming November election, 1913.

Now to call to mind and corroborate the foregoing few lines, (lest some of Crittenden's voters forget) we have herewith a notice published in the "Crittenden Record-Press," August 24th 1911.

Learner Guess Complimented.

Mr. W. S. Carver, from the State inspector's office at Frankfort, Ky., was in the city last week, and while here he said that he found the County Clerk's office in better condition than other one in the State. He also said the "Recapitulation of Assessment of Property for Taxes" sent in by our Clerk was one out of eight or nine, of the 119 counties, that was gotten up correctly and in first class shape. He said there were many of their recapitulations that had to be returned to the Clerks two and three times for correction, before they were in condition for the State Board of Equalization to work on. All of which goes to show that we have the best County Clerk and assistant in the commonwealth, of which we should be thankful. But correctness and accuracy are not all of it either politeness and a quick and willing response to all requests for information as to the county's affairs is put into practice in our clerk's office. No one no matter how poor, or humble of birth is ever met with a scowl or an unpleasant look but are assured by action and word the Record's are theirs and that it is a pleasant duty to furnish the desired information when possible. So far as we are concerned we hope they may be perpetuated.

On September 21st., 1911, there was another publication in the "Record-Press" of a letter received by Mr. Guess from State Inspector, W. S. Carver. This publication is as follows:

County Clerk Guess Complimented.

Learner Guess received a letter last week from the state inspector and examiner, which he is proud of as it shows that his books are being used as a model and were pronounced "correct in every respect." Below we print the letter.

Mr. L. E. Guess,
Marion, Ky.

My dear Mr. Guess:

I exhibited your recapitulation book for 1911 to the County Clerk's Association which met September 7 and 8 as a correct recapitulation in every respect and urged

ON THE ROAD J. B. M. ABROAD

He Visits The Thriving Villages Of Tribune, Iron Hill And Shady Grove.

Our representative, Rev. J. B. McNeely, in his perambulations last Saturday, made three stops, attended a great revival, and did eight hours work for the Record-Press.

Our first stop was at Tribune. Here Miss Ruby Towery holds the keys to Uncle Sam's mail department.

Willis Towery is in charge of a stock of general merchandise. In church circles the place is known as Hill's Dale. It is five miles east of Marion.

We made our next call at Iron Hill, ten miles east of Marion. J. N. Dean is doing a fine business here in the way of general merchandise. After getting all the news and doing some business in a substantial way, we passed on to the blacksmith shop of M. V. Sutton's. Mr. Sutton is the village smith for all that section. He is known for miles around as the expert horse-shoer. Then he grinds your corn while you wait. If you need anything in his line call on him.

A little farther on, our Allie said, "Whoa! Pa, is this Shady Grove?"

We looked up from our notebook and told him to "turn in" and we'd investigate.

There it was in big black letters, "SHADY GROVE ROLLING MILLS." So we thought, "Whoop-ee!—she's sure coming some!"

There are four general merchandise stores. G. H. Towery deals in dry goods, groceries and soft drinks.

You should call on Garret for staple goods, and in the same building Thos. C. Land stands

DEATHS

George Moore.

George Moore, one of the county's oldest and best known citizens died last Wednesday morning Oct. 1st, 1913, at 11 o'clock at his home eight miles northwest of this city. He was in his 88th year, and is survived by his 2nd wife, who was Mrs. Nannie Jacobs, nee Jennings. His first wife who died many years ago, was Miss Sarah Minner. No children survive, one brother, P. Coleman Moore, is the only near relative.

The interment took place Thursday at noon at Hurricane cemetery, Rev. G. Y. Wilson officiating.

Mr. Moore held his membership in the Hurricane Methodist church for many years.

Several years ago Mr. Moore had the misfortune to lose a foot by amputation which became necessary on account of blood poison which had developed following a cut. He never fully recovered from this shock and had kept close to home and much of the time in his chair, since.

Mrs. Elizabeth Leech.

Mrs. Elizabeth Leech, relict of James Harvey Leech, died at the home of her son in Princeton Monday, aged 83 years. The burial was conducted Tuesday by Rev. W. T. Oakley, and the remains were laid beside those of her husband in the Adamson graveyard near Crider. Mrs. Leech is survived by one son, James D. Leech, and one daughter, Mrs. Linnie Guinn, both of Princeton.

Before her marriage she was Miss Lizzie Glenn, related to the large family of that name in this section.

Hope Ours Will Come Next; Bids For Hopkinsville Postoffice Opened

Washington, Oct. 7.—Bids for the construction of the Hopkinsville postoffice were opened in the Treasury Department today. The lowest bids were submitted by the Northern Construction Co., of Milwaukee, which offered to build the structure of limestone for \$71,000 and sandstone, \$73,000. The lowest Kentucky bid was that of the Forbes Manufacturing Co., Hopkinsville, which offered to erect the building of limestone for \$71,900.

Nervous?

Mrs. Walter Vincent, of Pleasant Hill, N. C., writes: "For three summers I suffered from nervousness, dreadful pains in my back and sides, and weak sinking spells. Three bottles of Cardui, the woman's tonic, relieved me entirely. I feel like another person, now."

TAKE

Cardui

The Woman's Tonic

For over 50 years, Cardui has been helping to relieve women's unnecessary pains and building weak women up to health and strength. It will do the same for you, if given a fair trial. So, don't wait, but begin taking Cardui today, for its use cannot harm you, and should surely do you good.

Lee Was Right—Gov. Cruce Wins Text-book Case.

Gov. Lee Cruce was victorious in the text-book controversy which has been pending in the courts for more than a year, when the Supreme Court this week held in a unanimous opinion that the bonds of the text-book companies must be approved by the Governor before the State Board of Education can make contracts based upon its adoption. In ruling that the Governor's approval of the bonds was a condition precedent only upon which the board could act finally the court held that the subsequent adoption of contracts by the board without necessary approval by the Governor nullified

them.

Both of the leaders in this controversy, involving the expenditure of many hundreds of thousands of dollars, are former Kentuckians—Gov. Cruce, of Western Kentucky, upon one end and Superintendent Robert H. Wilson, of Southern Kentucky, upon the end.—Oklahoma City Telegram.

THE WICKEDNESS

Of the White Slave Traffic—Plan Given For Wiping It Off The Earth.

Sullivan, Ky., Sept. 29.
Editor Record Press:

I wish to write you a letter for publication and I think, when you have read it, you will agree with me that it is upon a subject that deeply concerns people that belong to all churches, and all people who are in favor of a strict enforcement of the laws.

The subject is The White Slave Traffic, the greatest crime in the world's history. Samuel H. London, an investigator for the Federal Department of Justice, is authority for this statement: that girls are sold at auction in New York City by white slave traffickers. The African slave marts were less atrocious than the present day white slave auctions in New York and elsewhere. In New York, he says, here are 26,000 white slaves, most of them under the age of 20 years, are held practically captives by masters from whom they cannot escape if they would. They earn, at the cost of their lives, \$57,000,000 for the well fed, gaudily dressed men who have enslaved them.

The girls do not get any of the money. They get loathsome diseases and death in hideous form in from three to five years. Mr. London goes on to say: Most pathetic of all are the auctions. In the bids, the figure and beauty of the slave are considered as much as the price. At times the auctions are as wild and mad as the floor of the stock exchange.

Mr. London says again that the white slavers have a code by which agents in one city report the escape of a white slave in another. I could write a great deal more of what Mr. London states, but it would take too much space in your paper.

Well, some one will say, how are you going to suppress it? I say, by organization and strict enforcement of the law. I will give you my plan for consideration. Organize—and why not organize in the town of Marion? Let the Marion bar and the ministers of all the churches, with their members, meet and write out their by-laws and pass resolutions and have them printed in pamphlet form and send them to ministers of all churches in city, town and village and throughout the rural districts. If the lawyers, ministers and business men of all professions will join in this organization they could, with very little expense, organize this nation inside of three months.

White Slavery, Horrors of The Traffic, that I receive from Mr. Arthur Capper, of Topeka, Kansas, who is the publisher of Capper's Weekly. He sends one copy for each subscriber up to 10,000 copies for the small sum of 25 cents for a year's subscription to his paper. If he can send 10,000 copies of the White Slave Traffic for so small a price for his paper, what could an organization do, if all churches and business men were to go after these infamous scoundrels with a vim and determination. Why, if the Sunday school children were to contribute one penny each it would place literature all over this continent and put words of warning in the homes of all the people. Forewarned is fore-

armed.

If I were to give this organization a name I would call it the Silver Cross of Christ, and all its members should wear it. There should be some laws enacted by the state legislatures, and the general government prohibiting any public conveyance to carry any passengers, especially city cabs, unless using the silver cross, for the city cabs are the devil's choice conveyance to spirit away the innocent girls to those living hells.

Oh, that all the business men were like Arthur Capper, Edwin W. Sims, Harry A. Parker and other noble men I could mention. An organization of this kind should be established in Canada, in fact all over the civilized world, for the safety of girls of all nationalities. Our girls would be safe in visiting foreign countries and the girls of foreign lands would be safe in landing upon our shores.

Now, fathers and mothers, you must not look for Satan to enter your homes and cloven feet, he always comes perfumed up, an oily tongue, a darling black mustache and a heart as black as the demons of hell. He is always dressed in the height of fashion.

There are men who do not belong to the white slave trade that cares no more for ruining some innocent girl, like plucking the beautiful rose, tearing it asunder and tramping it under foot.

Now, Christian friends, Saint Paul says the Kingdom of Heaven is not from observation, neither do we say, lo here or lo there, for the Kingdom of Heaven is within you. If the Kingdom of Heaven is within you and you fail to help stamp out this, the greatest crime in the world's history, what will your answer be when you are called in that Great Day, when all nations, tongues and tribes are brought before the Great White Throne? Again, what will your answer be, faith without works is dead?

Cam Crayne and Mr. Little were in this community buying cattle last week.

Prayermeeting at this place every Tuesday and Saturday nights; Sunday school every Sunday evening at three o'clock. Everybody invited to come and take part.—LITTLE ROSE.

Avoid Sedative Cough Medicines.

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codeine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. For sale by all dealers. 10

Citizens of Mayfield to Arm Themselves With Pick and Shovel.

Mayfield, Ky., Oct. 7.—Every able-bodied man in this county of 40,000 inhabitants enlisted to arm himself with a pick and shovel and work the public roads on October the 15 and 16, two special days that have been set aside for the purpose.

Every place of business in Mayfield has signed agreement to remain closed these two days and every citizen from Mayor down to members of the chain gang will work the roads.

It is believed that 7,000 or 8,000 men will each put in two full days on the county highways.

GOOD NEWS

Many Marion Readers Have Heard It And Profited Thereby.

"Good news travels fast, and the thousands of bad backs sufferers in this vicinity are glad to learn where relief can be found. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Thousands upon thousands of people are telling the good news of their experience with this tested remedy. Here is an example worth reading:

Mrs. E. Kestling, Hopkinsville Road, Princeton, Ky., says: "Some years ago I was taken to my bed by an acute attack of kidney trouble. I had severe pains in my back and shoulders. I had rheumatic twinges which racked my whole body. I was nervous and my sight was effected. I tried many remedies but none gave me any relief until I used Doan's Kidney Pills. I found they were the only remedy that would give me any relief whatsoever."

WOODVILLE, MISS.

Woodville, Miss., Sept. 29, 1913.—Dear Marshall, there were so many of my friends asked me to write to them, and I promised all of them I would, so every opportunity I have had I have been writing. I have already written 23 and have hardly begun, so wanting to write to all, I trust you will let one letter reach all, through the Record-Press. I feel like I want to address you and all those who read this letter by saying "dear friends," the arrangements for my leave from Marion, was so sudden that I felt very serious about it for I realized it would be a task for me to go away from my kindred and friends with the expectation of not seeing them for at least one year and knowing that many of them I would not get to see any more before I had to leave, yet it did not become so very serious until I went out to my old home, where and by whom I was raised (or whose watchcare I was under,) uncle Wyatt Hunt, then it was as I rode away from there I began to recall to mind many, many things there it was I spent my 21st, birthday with grandfather, grandmother and uncle Wyatt. Never before in life had I felt sadder than I did that day. I spent a good portion of the day wiping tears from my eyes. I had often heard people speak of being free at the age of 21, but I had a different feeling, I

knew that I had always been under the watchcare and protection of these three and now it was I had to go out into the world and think and plan for myself and I felt as I do today, unprepared for the task, yet I had to go and my mistakes have been more and greater than I anticipated and had it not been for the comforting words and prayers of my friends and the promises given in Holy Writ, I don't know where I would have been today. But as I rode away from uncle Wyatt's I could not help looking back but after I got out of sight, the thought of business took up my time principally for the day and until about 8:30 o'clock at night, then I went out to spend the remainder of the night with my sister, Mrs. S. R. Gass, and family, but when I went to the station in the afternoon to start and saw so many of my friends there and found they had just come to tell me good-bye, wishing me success and in telling me good-bye, so many would say "God bless you," I knew that meant something, yet I had not realized all, and did not until the train rolled away and the white handkerchiefs began to wave and the farther away I got, the higher they went and continued until I got where I could not see. Then it was I said, "Oh, Lord, if my arms were long enough, I would reach back and embraced that entire crowd," and had I had time, it would have done my soul good to have got off of the train and gone back and got down at your feet and thanked you and asked God to bless you, (I now say God bless you all.) Please pardon me for mentioning any one's name, but there were an expression on the faces of J. Wesley Lamb, T. C. Guess and George Yates when they said good-bye that I never can forget. They were my neighbors. They said "remember me." Oh, how I do wish I was as sure of meeting everyone again as I am them.

When I got to Princeton the Louisville train was 3 1/2 hours late so I went with Charley Paris' and eat supper. I left Princeton at 8:40 p. m., and had to go by way of Fulton in order to get to St. Louis Monday morning. I arrived at Fulton 11:40 p. m., had forty minutes stay there, while there I thought of all my people that were, I supposed, slumbering at that hour. Then, in my meditations, I said "Lord bless them while they sleep." But the most agonizing time was when I had been slumbering and awoke and looked out just as day began to break, I could not keep from turning my eyes toward home yet I knew I could not see it. Then it was my mind ran to Daniel when he got on his knees before the window looking toward Jerusalem and poured out his soul to God, and I felt like it would be a relief to me to get upon my knees with my face toward Marion and ask God's blessings upon every human being in Crittenden Co. The sun was shining long before I got so I didn't have to wipe the tears from my eyes.

Dear friends don't think it was all sorrow, it was a joy to me to remember you, and these tears, many of them, were for joy.

It is now 10 o'clock and I will say good night to you all. Will write something about my new home next week. Yours Truly,
J. FRANK CONGER.

BOOTH'S HYOMEI

Has Benefitted Thousands of Catarrh Sufferers—Will Do the Same for You or Money Back.

The Hyomei treatment that has effectively benefited many thousands of sufferers from catarrh, bronchitis, husky voice and colds in the head is easy and pleasant to use. Just pour a few drops in the inhaler and breathe it in—no stomach dosing. The healing, soothing and antiseptic air will reach every nook and crevice of the mucous membrane of the nose and throat; will surely stop crusts in the nose, raising of mucus, hawking and that choked-up feeling. It will quickly allay the inflammation and banish the disease or money refunded by Haynes & Taylor. A complete Hyomei outfit, including inhaler and bottle of liquid, costs only \$1.00, and an extra bottle of liquid, if afterwards needed, is but 50 cents. 10916.

Fulton An Unhealthy Place For Chinamen.

Years ago a Chinaman arrived in Fulton and at once began preparations to open up for business, but the day before his opening he mysteriously disappeared and we could find no one to give us any correct information as to how the said Chinaman departed from the city, jumped in a well or what become of him. Some believed he was kidnapped, tarred and feathered and sent on his way rejoicing. It seems that Fulton is an unhealthy place for Chinamen as all who have attempted to locate here mysteriously disappear.—Fulton Leader.

Negro Assailant Of Girl Is Lynched In Leitchfield.

Leitchfield, Ky., Oct. 7.—Joe Richardson, a negro, was lynched here, following his arrest charged with attempted assault on Rea Golf, a eleven-year-old white girl. His body was found hanging to an elm tree in the court house yard.

The little girl was on her way to school about 8 o'clock in the morning when, it is said, she was attacked by the negro who was frightened away by approach of the neighbors, attracted to the scene by the screams of the child.

Secretary Bryan has issued a
statement endorsing the new
tariff law as the best one since
the Civil war and predicts the
early passage of the currency
bill.

The County Supt., was in the
Press office this morning and
reports the schools in fine shape.
The attendance is larger than
was ever known before in the
history of the county, which
shows that the pupils are inter-
ested and the patrons, too.

When you look about in a mov-
ing picture show in the evening
and wonder how in the world so
many men fool away time in
that fashion, you can be sure
that's just the thought that
occurs to the other men about
you.

General Business Outlook.

The trade and industrial situa-
tion justifies a conservative
degree of hopefulness, and from
excellent sources of information
it is apparent that there is reason
to expect favorable business
developments in the near future.
With the settlement of tariff
revision practically accomplished
the uncertainty connected with
this prolonged controversy re-
moves one great obstacle to trade
revival. Stocks of merchandise
are at a low level and these will
need to be replenished with new
supplies. Notwithstanding
whatever drawbacks existed
lately consumptions remarkably
large, and there is reason to ex-
pect that it will soon give un-
mistakable evidences of improve-
ment. Trade prospects are
therefore propitious for business
activity, and although deteriora-
tion in the corn crop will cut
down the yield of that cereal from
what was anticipated earlier
in the season, the govern-
ment report indicates a crop of
2,351,900,000 bushels. The wheat
crop of 754,000,000 bushels fixes
a new high record for this com-
modity so that the loss in corn
is compensated for to a consider-
able extent. Increased demands
for all products are bound to
arise, and the inference is that
the country will soon enter upon
a period of expanding business
prosperity.

Newspapers Educate.

An experienced teacher says
that pupils who have access to
newspapers at home, when com-
pared with those who do not,
are better readers, better spell-
ers, better grammarians, better
punctuators, and read more un-
derstandingly, and obtain a
practical knowledge of geogra-
phy in almost half the time it
requires others. The newspa-
per is decidedly an important
factor in modern life. This will
not be disputed by any one who
has taken the trouble to investi-
gate the matter for himself.—

Educational News.

Dear Editor:—

I have not had a chance, or at
least, I have not taken the time
to give you any school news this
year, but if you will give the
space in your paper I will do it
now.

The schools all began on the
same day, Aug. 11th. The en-
rollment is greater than I ever
saw in the county. Everybody
is going to school. The teachers
had gone out from one of as good
institutes as we ever had, filled
with enthusiasm and zeal for the
work and they carried it with
them right into their schools. I
began making my official visits
almost as soon as the schools be-
gan and have found the teachers
doing their work according to
the course of study and with an
earnestness that appears to mean
business.

We have had two division As-
sociations, with two more to
come. Those held, Forest Grove
and Baker were best attended,
the most enthusiastic meetings
of their kind that I have ever
seen. At these meetings the
children were given a place on
the program and responded read-
ily. This gives them a new idea
of school work, and creates an
interest that can not be had any
other way.

We are to have a school fair at
Hurricane on Friday, Oct. 17th.
We have never yet had anything
just like this in the county and I
want to insist on the teachers to
prepare some or all of their pupils
for a part in this work. It may
be a little extra work on you but
it will pay in the end. Especial-
ly do I want to insist on the
patrons to assist your teacher in
trying to encourage your chil-
dren to take part in this work.
It may help some boy or girl to
a renewed interest who has be-
come discouraged with school
life and counts school a failure.
It may open a new avenue to
some child that will make life
worth the living where other-
wise it would not. Besides it is
real life for the child now.
Come and bring them with you.
You will have a chance to see
what your teacher is trying to
do for your child. You will en-
joy it. Yours very truly,

E. JEFFREY TRAVIS,
Superintendent.

A Visit That Will

Long be Remembered.

Dr. G. W. Stone and W. P.
Yandell made a trip last Thurs-
day to Lyon county to visit Mrs.
Tempe Brasher, an aunt of the
former, and esteemed friend of
the latter. Mrs. Brasher is now
nearing the 90th mile stone and
is quite feeble. She makes her
home with her youngest son,
Kirk Brasher, and his wife, who
are making her declining years
as comfortable as possible. The
visitors report a feast for the
noon hour fit for a king, and the
memory of it will remain with
them for many years to come.

A distressing accident to little Miss Louise Reed the 3 year old daughter of Mr. and Mrs. A. H. Reed occurred last week when her little brother accidentally struck her across the hand with an axe, with which he was cutting wood. Three of her fingers were almost severed and it took several stitches to sew up the wound, which the attending physician now thinks will heal and grow together. At first it was thought she would lose the three fingers, and friends as well as the family who were much distressed over the accident will be proud to hear of her improvement.

Rev. T. M. Radcliffe of Illinois a Christian preacher who filled the pulpit at Liberty Grove each first Sunday died of heart failure Friday evening at the home of Albert Thomas where he was stopping. He was enroute to his appointment and had he lived would have preached at Liberty Grove last Sunday. He had no relatives except one daughter Mrs. Clara Goff of Tex. She and her husband came in to the burial arriving here Monday morning at 8 o'clock. The Rev. Mr. Radcliffe was noted for his immense size, weighing over 300 lbs. He was popular with his congregation.

Editor For Ambassador.

Washington, Oct. 1.—H. M. Pindell, a newspaper editor of Peoria, Ill., is foremost among those being considered by President Wilson for ambassador to Russia. His friends expect his nomination will be made within a short time.

Mr. Pindell was prominent at the Baltimore convention and

was largely instrumental in swinging the big vote of the Illinois delegation for Wilson at a crucial moment. He has long been a friend of the president and early in the administration was selected for controller of the currency, but declined the place.

Charles R. Crane, of Chicago, has been prominent among those considered for the St. Petersburg post.

Twenty Foxes \$100,000.

Tacoma, Wash., Oct. 3.—One hundred thousand dollars cash will be paid within a few days for ten pairs of Alaska silver black foxes raised on a fox farm in Southeastern Alaska. The purchaser is W. B. Purdy, of Boston, president of the Massachusetts Silver Fox Company, owner of the largest fur farm in the world, on Prince Edward Island. One of the animals Purdy will purchase is worth more than twice its weight in \$20 gold pieces. This fox is a male and weighs a few ounces more than 12 pounds. The Alaskan reynard's weight in gold would be \$6,000. It is valued at \$15,000.

Ledge of Gray Granite

Found in Hart County.

Glassgow, Ky., Oct. 7.—There is considerable excitement in Hart county over the recent discovery of gray granite! A party of men were blasting stone near the railroad between Cave City and Horse Cave when the granite was discovered. Those in this section who pretend to know anything about minerals say the granite is of the finest quality and very valuable. Samples will be sent to Lexington this week for analysis, and if it is pure granite, a company will be organized and a quarry opened.

NEW TARIFF LAW WILL MAKE MANY RATE REDUCTIONS

Synopsis of Measure on Which Special Session of Congress Has Been Working.

MARKED CHANGES IN THE AVERAGE DUTIES

Democrats Confident That the Country Will Be Benefited by the Alterations, and That Business Will Remain Unaffected — Ad Valorem Rate in the Bill Is From 27 to 29 Per Cent. In Payne-Aldrich Bill They Are 40-12 Per Cent.

Washington.—The Democratic tariff revision bill, first on the program of reforms mapped out when President Wilson came into office, advanced to its last congressional stage when it was brought back to the house from the joint conference committee with the unanimous indorsement of the Democratic conferees.

The measure, of course, has both its friends and enemies. According to the administration, it carries out four of the party promises. Tariff reform, reduction in the high cost of living, campaign against the trusts, in that duties have been taken off of many trust made article, and the income tax.

The measure, consequently, has a larger importance than that of a mere tariff reform bill, and its effect must be widespread, both on business and industry, and also in connection with politics. Democratic leaders are confident that business will suffer no untoward effect; that consumers will be benefited.

Changes in the Rates. The bill imposes an average ad valorem rate of from 27 to 29 per cent. The average for the present Aldrich law is 40.12 per cent. The average for the Wilson-Gorman act was 39.45 per cent.

Duties generally have been reduced on all of the articles that enter into the necessities of life, including the products of the farm as well as manufactured products.

Trust made products in many cases have been transferred to the free list or the duties at present imposed have been substantially reduced.

The income tax feature of the bill is expected to net some \$83,000,000. It will call for a tax on net incomes of unmarried persons of \$3,000 and upwards and on net incomes of married persons living together, where the wife or husband is dependent, of \$4,000 and upwards.

Experts' estimates indicate a surplus of \$18,000,000 over all expenditures at the end of the present fiscal year.

A rate of 40 per cent. is imposed on stockings and half hose valued at

not more than 70 cents a dozen pairs. For stockings between 70 and \$1.20 a dozen pairs a duty of 40 per cent. was agreed upon.

The conferees eliminated the provision inserted by the senate denying entry into the American market of goods manufactured by children under 14 years of age.

The final agreement provided that any person employed to collect the income tax may be utilized by the secretary of the treasury in the general service of the internal revenue bureau.

Larger Customs Revenues.

"The customs revenues will be larger for the current year, 1914," Senator Simmons said, "because the rates of the Payne-Aldrich law have been for the force quarter, and will continue in force on wool and woolen goods until January 1, and on sugar until March 1. When the next fiscal year begins, July 1, 1914, all the rates of the new law will be in operation and the tariff duties collected will be smaller."

The income tax which is collected for the calendar year can be collected for only ten months of the present year, as the law specified that collection shall not go back of March 1, 1913. The estimated decrease in the total expenditures of the government for 1914, \$5,000,000, is based on the fact that smaller expenditures are expected for the army and navy estimates.

The balance of the total estimates, as given in the treasury estimates, is made up of postal receipts, internal revenue receipts, the profits from public land sales, and other sources of federal income.

Agricultural Products and Provisions.

Cattle, sheep and other domestic animals suitable for use as food, wheat and wheat products and eggs, have been transferred to the free list. Reductions have been made on oats, butter, beets, frozen eggs, peas, green-house stock, zante currants, chocolate and cocoa sweetened and extracts of meats from the rates provided by the house. The rates have been increased over those provided by the house on broken rice, fish packed in oil and ground spices. A rate of 20 per cent. ad valorem is placed on ground spices in addition to the specific rate provided by the house on unground. The senate receded from the reduced rate placed on flaxseed and its amendment placing a duty on bananas. The house classification on lemons and other citrus fruits is accepted.

Schedule H, Spirits, Wines and Other

No changes of importance are made in this schedule. The rates on ginger ale and similar beverages are slightly decreased on bottles containing not more than one-half pint each. The senate receded from its amendment placing an internal revenue tax on grape brandy used in fortifying sweet wines.

Papers and Books.

The house rates have been reduced on common paper, box, boards, papers partly covered with metal leaf or gelatine and plain basic papers for albumenizing for photographic printing. The rates provided by the house for surface-coated papers suitable for covering boxes has been increased from 35 to 40 per cent. The senate amendments placing specific rates graduated according to thickness and size have been agreed to with several reductions in the rates provided. The rates agreed to are approximately

equivalent to the ad valorem rates provided in the house bill. A specific rate has been placed on lithographic views of scenes and buildings located in the United States instead of the ad valorem rate provided by the house. This amendment results in an increase in the rate of duty.

Roman, Portland and other hydraulic cements, limestone, rock asphalt, asphaltum, and bitumen have been transferred to the free list. The house rates have been reduced on lenses, surveying instruments, telescopes, microscopes, photographic and projection lenses, in increased on strips of glass for lenses and gauges, opera and field glasses. A new classification has been made for unmanufactured mica and a rate of 1 cent per pound placed on all valued at not more than 15 cents per pound, and 25 per cent. on that valued at more than 15 cents. This results in an increase over the house rate of 30 per cent. on the cheap glass of mica, costing less than 14 cents, and a reduction of 11 that is valued at more than 15 cents per pound.

Cotton Manufactures.

The senate classification of cotton cloth, according to the average number of the yarns contained therein, was accepted, instead of the house provision for the highest number. This slightly decreases the rate of some fancy weaves and novelty cloth, but on the greater bulk of cotton cloth the rate is not affected. The rates on bleached and dyed colored yarns are increased and on cotton yarns and cloth made of yarn, from numbers 79 to 99. The rates on handkerchiefs or mullers, not hemmed, have been deducted from 30 per cent., as provided by the house, to 25 per cent.

WORK DONE IN CONFERENCE

Alterations That Were Made From the Original Underwood Bill Passed by House.

A summary of the agreements informally announced from day to day during the conference work shows in comprehensive manner the following important alterations of the original Underwood bill:

The tax rate on incomes of more than \$75,000 was increased by a graduated scale from three per cent. to seven per cent., and the exemption reduced from \$4,000 to \$3,000 for single persons. The new provision allowing a \$4,000 exemption for a married person provides "that only one deduction of \$4,000 shall be made from the aggregate income of both husband and wife when living together."

Articles added to the free list include pig iron, ferro manganese ore cheap grades of iron; cattle and other food animals; wheat, flour, flax, hemp, sugar refining machinery, school text books, sand blast machinery, indigo dyes, moving picture films, cement and asphalt.

Soma Increases Made.

Increases from the house bill include:

Angora wool and articles made from it.
Silk ribbons and narrow fabrics from 40 to 45 per cent.

Lithographic views of American scenes.

Surface coated paper suitable for covering boxes, from 35 to 40 per cent.

Many kinds of acids.

Some kinds of paints.

A new classification for woolen stockings, gloves and mittens makes a reduction from the house rate on those valued at less than \$1.30 a dozen and an increase on those above.

Reductions from the house rates include:

Common paper boxboards.

Papers used for photographic prints.

Wearing apparel made of cattle or goat skins.

Fur hats.

Rough forms of dog and goat skins.

Camel's hair press cloth for use in cotton oil mills.

Cotton stockings and half hose.

Perfumed and medicated soaps.

Crude chicory.

Linseed oil.

Chlorate of potash.

High-power lenses, surveying instruments, telescopes and the like.

Oats.

Butter.

Beets and other vegetables.

Extracts of meat.

Currants.

Chocolate.

House Rates Changed.

Through a reclassification rates will be slightly reduced from those fixed by the house on fancy grades of cotton cloth.

The tariff on automobiles, fixed by the house at 45 per cent. and radically cut by the senate, was compromised by making a new classification of automobiles valued at less than \$2,000, for which a rate of 30 per cent. was fixed.

The 5 per cent. rebate in tariff made by the house bill on goods brought in American ships was retained with the added provision that it should not "be so construed as to abrogate or in any manner impair or affect the provisions of any treaty" the United States has.

That portion of the house bill requiring foreign manufacturers or exporters to submit their books to American custom agents was amended so that if the exporter refused to allow such examination an additional duty of 15 per cent. ad valorem can be imposed on his exports.

Section 8 of the Cuban reciprocity treaty, which provides that Cuba should have a preferential rate of 20 per cent. on sugar and that the general tariff of the United States should not be reduced below the figures of the Dingley tariff law of 1897, is repealed.

Sherrill-Russell Lumber Co.,

Paducah, Ky.

The West Kentucky Coal company has placed order with the Sherrill-Russell Lumber company for material for thirty new barges which will be built at their Paducah barge building plant.

The order is a huge one, comprising one million and eighty-five thousand feet of lumber and, counting fifteen thousand feet to the car, seventy-three cars will be required for its transportation. If carried in one train it would stretch itself out for over one half mile or more.

A wide variety of lumber is embraced in the requirements. Six hundred and sixty-five thousand feet of Douglas fir, timbers will be shipped from the Pacific northwest. And there will also be three hundred thousand feet of long yellow Pine, originating at Sherrill-Russell's own mills in Louisiana, one hundred and fifty thousand feet of long steamboat white oak lumber, which will be sawed by the Sherrill-Russell King Mill & Lumber Company of Paducah and the Colfax Hardwood Lumber company, of Colfax, La., two companies which are closely allied with the Sherrill-Russell Lumber Co., which are, in fact, under the same management.

Considering the variety of lumber specified in this order and the close competition between Chicago and other large city mills, as well as local mills, its placing with the Sherrill-Russell Lumber Company stamps their facilities as equal to those of any lumber concern not only in Kentucky but of any state in the Union, so far as reliability matter is emphasized by the fact that this is the third large order of the same kind the Sherrill-Russell Lumber Co., have furnished the West Kentucky Coal Co., very conclusive evidence of the satisfaction they have given.

Paducah too will profit in every avenue of trade from the building of this new fleet of barges, as over three months will be required for the completion of the barges and more than twenty thousand dollars will be paid out for their construction in wages alone. It may readily be seen that the benefit which will accrue to Paducah as a whole from this one undertaking will more than justify the modest donation given the West Kentucky Coal company in private subscription.

DEATH CALLS MINIS- TER SEATED IN CHAIR

One of Four Crowe Brothers of
Methodist Clergy Victim
of Long Illness.

Seated in an arm chair in a
bedroom of his home, 531 South

Sixth street, the Rev. Robert Crowe, 40 years old, died suddenly at 9:15 o'clock last night. Mr. Crowe had suffered from bronchial trouble, for several years, but was not confined to his bed until Friday. Yesterday he informed his wife, Mrs. Flora Crowe, that he desired to sit up. Mrs. Crowe assisted him to a chair and left the room. When she returned several minutes later he was dead. Coroner Ellis Duncan ordered the body removed to L. D. Bax's undertaking establishment, 719 East Chesnut street.

The Rev. Mr. Crowe held many Methodist pastorates in Kentucky, his native State. Failing health forced him to give up active ministry several years ago, since which time he has resided in Louisville. His widow, two daughters, Misses Georgie and Fannie Crowe; his mother, Mrs. Fannie Crowe, and three brothers, all of whom are Methodist ministers, the Rev. Charles R. Crowe, pastor of the Davidson Memorial church, of this city, and the Revs. John and Edward Crowe, survive.—Courier Journal.

New Deposit of Radium Ore Found in Germany.

Berlin, Oct. 7.—An important deposit of uranium and pitchblende from which radium is extracted, has been found on the German side of the Erzgebirge, a range of mountains between Saxony and Bohemia. The deposit is apparently a prolongation of that on the Bohemian side, which has hitherto been the principal source of supply.

The find has created great interest on account of the demand in connection with treatment of cancer. German cities and states have placed unfilled orders for uranium and radium amounting to \$625,000.

FROM THE ATLANTIC TO THE PACIFIC

Waters Will Flow Through Panama Canal On The Tenth of October.

Washington, Oct. 4.—With the blowing up of the Gamboa dyke on Oct. 10th, the waters of the Atlantic and Pacific will meet in the Panama canal, and thus practically complete the great American link between the oceans.

The Gamboa dyke is the last obstruction separating the waters of the two oceans. With its removal the canal waters will for the first time enter the Culebra Cut spreading from Gatun Lake to the western gates of the canal. At the suggestion of Congressman Stephen, of Los Angeles, the Isthmian Canal Commission is arranging with Col. Goethals for the fixing of a definite hour for the liking of the waters, in order that appropriate celebrations may take place at the moment in the United States.

Los Angeles, San Francisco, Portland and Seattle are planning great demonstrations for the occasion and it is expected that that the Atlantic coast and Gulf cities will join in the celebration. By Oct. 1st, the channel from the Gatun locks to the Atlantic will be cleared and opened. The Pacific channel to the Miraflores locks is already open. The only portion of the canal then remaining to be flooded will be that which includes the Culebra Cut and the removal of the Gamboa dyke will stretch the waters from sea to sea.

The excavation of the Culebra Cut is practically complete. The construction tracks have been removed and steam shoveled excavation on the bottom of the cut has ceased. After the water is turned on any further excavation necessary will be done with dredges.

A WOMAN'S WORK
sometimes reduces her strength to the depths of weakness—her devotion to household cares prevents sufficient rest and recreation. Thousands of women in this condition find Scott's Emulsion exactly what they need; it is predigested body-food so medically perfected that every drop yields direct returns in strengthening the organs and tissues and in making healthy, life-sustaining blood. Scott's Emulsion is devoid of alcohol or any harmful drugs, and overcomes tiredness and nervousness in a marvelous way.

Wearing Other Folks' Limbs.

Dr. A. L. Soresi, a New York surgeon, a few days ago remarked that he hopes shortly to be able to prove that it is possible to graft new limbs on human beings to replace lost ones, using limbs from persons not long dead. No—we can't dispute his ability to do this thing, nor the possibility of it, for there are too many wonders daily coming to pass that were but yesterday believed impossible. But won't it be rather—er—uncanny, to say the least, to go around wearing the arm or the leg of a deceased person—or persons? One would expect considerable nervous irritation

and—perhaps insomnia, to arise from the contemplation of such a condition, wouldn't one?

Fly Across Atlantic?

Paris, Oct. 8.—Roland G. Garros, who on Tuesday made an aeroplane flight across the Mediterranean, is quoted as to the possibility of a flight across the Atlantic ocean. He believes this to be possible. His plan would be to divide the journey into three stages: First, from England to Iceland; second, from Iceland to New Foundland; third, from New Foundland to the United States.

Two of these stages would actually be shorter than his France-to-Tunis flight and the voyage little longer. With properly arranged supply stations at the stopping points the flight, he believes, would be quite realizable.

Suit Over Lighting

Charges Compromised.

Mayfield, Ky., Oct. 4.—The suit of the Mayfield Water & Light Company against the city of Mayfield for \$2,210 has been settled. The city offered to pay \$1,600, which the plaintiff accepted. The trouble arose when the City Council passed an ordinance last year reducing the price paid for street lamps from \$96 a year to \$72 a year. In the compromise the city will hereafter pay \$84 each for the street lights.

citizen of the New Salem section, died Tuesday morning, Oct. 7th, 1913, at 4 o'clock, of kidney trouble of which he had suffered for several years. He was in his 69th year, having been born in 1845, May 21st. He was a Tennessean by birth and came to this section from Sparta, White county Tenn., about fifty years ago. He was not a member of any church but lived an upright christian life and was highly respected in his community. He is survived by his wife who was Miss Victoria B. Travis, to whom he was married May 22nd, 1867, and by five children, Miss Carrie, Mrs. Blake Hopkins, John L.; Harry T.; and E. L., all of this county. One daughter, Miss Emma, died in 1901.

The remains were laid to rest in the New Marion cemetery Wednesday at noon, Rev. Carl Boucher, pastor of the New Salem Cumberland Presbyterian church, officiating.

Mr. Harpending had been a correspondent for the Crittenden Press for thirty years or more, and rarely missed a week in sending in the news of his section.

Mrs. Sarah Miles Dead.

Mrs. Sallie Miles, (relict of Richard Miles, who preceded her to the grave over 41 years ago,) died at the home of her son, Richard Miles, who resides on the old Phenice Barnett place, Monday, Oct. 6th, 1913. The remains were laid to rest in the family burying ground. Mrs. Miles who was the only daughter of the late Phenice Barnett, was born Jan. 18th, 1842, and was therefore in her 72nd year. She is survived by one brother, Wm. Barnett, of this city, and Tolu, two sons, Richard and P. B. Miles, of this county and one daughter, Mrs. Lee Evans, of Paducah. Mrs. Miles was a member of the Christian church, and was a much admired and beloved woman in her young days. In later years the afflictions of ill health had prevented her going from home.

Mrs. Geo. Yancy Bennett.

On Sept. 6th, 1913, the spirit of Mrs. Georgie Yancy Bennett, of Dycusburg, Ky., left its house of clay that it might enter the mansion in the skies. It was my happy privilege to know this sweet christian woman in her life, and my sad duty to attend her funeral, but this sweetened by the beautiful hope that she left behind which I tried to anchor to her two boys and her dear husband, father, mother and her uncle. Her life was an exception, in that while she was young she gave her self to the Lord's work and she loved her church as few people do. There was no person in all that country whose life meant more for the uplift of the standard of true religion than did hers. We shall greatly miss her, but we shall expect to meet to her in that beautiful place for which she was so well fitted.

She was born Jan. 14th, 1883, and was married Dec. 14th 1898.

upon all the clerks to adopt your method. I am.

Yours very truly,
W. S. Carver.

The work of Mr. Guess ranked with the top row of 8 or 9 of 119 County Clerks in Kentucky and the State Inspector urged all County Clerks of the State to adopt the methods of Mr. Guess of Crittenden County.

This is a remarkable showing for a country boys first term in the office of County Clerk.

Crittenden County is proud of her Judge of the Court of Appeals her Governor of a great Commonwealth and her United States Senators. She should also be proud of her County Clerk who headed a list of 119 County Clerks and whose method of work was recommended to all of them as a model by a State Inspector.

Just across the street is Collin McConnell's drug store, and a more obliging doctor could not be found.

Away down the street is Fred Lemon, who has an immense stock of dry goods, and he is selling them.

The last business call we made was at Mrs. B. C. Birchfield, the milliner of the town and the country around. Ladies, when you need a new hat, give her a call.

There are two churches in the town—the Methodist and the Baptist. We attended services at the Baptist church Saturday night. The house was filled to overflowing, and at the close of the sermon ten or twelve penitents came forward for prayers. Three conversions during the service. It was a great meeting. Rev. T. C. Carter did the preaching.

On our way over we enjoyed Mr. James Pickens' great watering place. The water is carried over 200 feet from his spring to a reservoir and emptied into a large trough. Here stock can quench their thirst and with the cupman can drink his fill. "Thanks, Mr. Pickens," is the thought of every weary traveler.

While in town we met with the noted writer and newspaper correspondent, Robert Edward Towery. Robert Edward is all the time looking around for news, and he makes a specialty of visiting schools where there are lady teachers in charge. The prettier the teacher, the more earnestly does Robert Edward search for news thereabout.

Robert Edward, here is to you: May your tribe increase! May your pathway be strewn with roses, and as you go forth on the journey of life, may the best treatment ever be yours. May you find a lonely BETTER-HALF! to share your pleasures, that you may not have to walk this old earth much longer alone, alone—all alone!

roads, giving their time and labor as a free will offering, and as evidence of their patriotism. It is as much a patriotic duty to improve our surroundings as to repulse an invading enemy. I believe the people of Crittenden county are as loyal and as patriotic as those of any other county in the State.

Reports will be published throughout the State in the newspapers as to how the people respond to this call from our Governor. Let us, every citizen of Crittenden county, do our part and make a good report for old Crittenden—a report we may all be proud of. I hope the citizens of each section will meet on their respective roads and select a good leader to direct the work, and when the work is done we can all rejoice in the feeling of having done a good work and enjoy the pleasure of having better roads.

I am satisfied that no one will want to stay at home and be pointed out by his neighbors as a man who is unwilling to help in the improvement of his home county. If any one cannot do hard work let him come anyway and pick up rocks and rubbish and throw them out of the road, or carry water for those who do work.

J. W. BLUE JR.
County Judge.

Marion, Ky., Oct. 8, 1913.

An Appeal to Every Loyal Crittenden County Citizen.

The Governor of the State of Kentucky, having issued the above proclamation calling upon the citizens of Kentucky to work the public roads in every county in the State, we therefore make an appeal to the citizens of Crittenden county that they show their loyalty by out-doing the citizens of other counties on these two days—October 24 and 25. We do not believe that Crittenden county will be weighed and found wanting in this worthy undertaking. We suggest that every man who is able to work at all take it upon himself on these two days to go upon the road that he is most interested in and work the two full days. Let the lawyers, doctors, county officers and all business men go upon the roads and do manual labor these two days and show the farmer that they are truly interested in good roads. It would be well to study the situation beforehand and know what is to be done and have our plans made so that on the 24th we may be ready to go forward. Have meetings in each neighborhood, elect some one to have charge of each section of road who will direct the work, have teams ready where teams are needed.

We want on the Marion and Salem road at least 100 wagons and teams on these two days for the purpose of hauling rock from the Franklin Mines. We would like to hear from every one who will furnish a team on this road on these two days, as soon as possible. A number of people in Marion are expected to donate wagons and teams on the two days to go upon the Marion and Salem road. The Franklin Mining Company, through its generous superintendent, has kindly donated a great lot of the finest of rock to go upon this road and will need at least 100 teams to move this rock. Let's build good roads without cost on the two days named in Governor McCreary's proclamation. Every store in Marion should be closed during working hours these two days. The high school should dismiss the boys on these days, so that every one will not only have an opportunity to work, but that every one will be made to feel that it is his duty to do so. When you read the Governor's

proclamation and this appeal kindly pass it to your neighbor. Talk road work from now until the evening of the 25th. Get every person interested.

The Family Cough Medicine

In every home there should be a bottle of Dr. King's New Discovery, ready for immediate use when any member of the family contract a cold or a cough. Prompt use will stop the spread of sickness. S. A. Stid, of Mason, Mich., writes: "My whole family depends upon Dr. King's New Discovery as the cough and cold medicine in the world. Two 50c bottles cured me of pneumonia." Thousands of other families have been equally benefited and depend entirely upon Dr. King's New Discovery to cure their coughs, colds, throat and lung troubles. Every dose helps. Price, 50c and \$1.00. All druggists. H. E. Allen & Co., Philadelphia or St. Louis.
